Weekly COVID-19 report

COVID-19 Snapshot

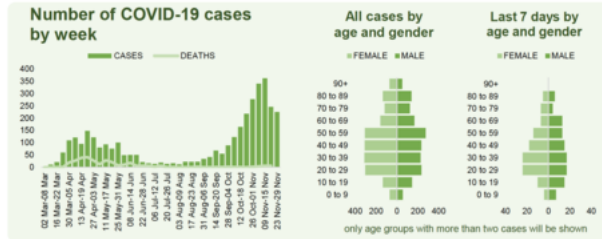

As of 2nd December 2020 (data reported up to 29th November 2020)

Population 288,648

Direction of travel compares current snapshot against previous snapshot key: ↑ Increasing ● no change ↓ decreasing

Weekly figures

This week, in Central Bedfordshire we've seen 225 new COVID-19 cases. This is 31 cases less than last week and 121 less than two weeks ago. However, like last week, we are still reporting sadly another six deaths.

Also, it is important to consider the situation in other areas close to us, all three of the areas list below have seen a drop in new cases which is good news:

- Luton – 513 cases and 5 deaths
- Milton Keynes – 376 cases and 8 deaths
- Bedford - 171 cases and 7 deaths

Hands. Face. Space

Let's keep up the good work and make sure this downward trend in new cases continues. We can all play a part in protecting others by:

- washing our hands regularly
- wearing a face covering
- socially distancing from anyone we don't live with

If you have [symptoms](#), test positive or are asked to isolate by Test and Trace you MUST do so and can be fined if you don't. [Our website has details about support and advice available](#) to you if you need help to isolate.

Useful information from GOV.UK on restrictions and Christmas

GOV.UK also has useful information about:

- [Tier 2: High Alert](#) - what you can and cannot do in an area in Tier 2 of local restrictions.
- [Making a Christmas bubble with friends and family](#).
