December 2020

Dear Parent/Carer,

Google for Education

Thank you very much to those of you who were able to complete the technology survey. The results have given us key information to help us implement Google for Education in school to support your child's learning.

We have now set up all pupils with a google account and we would like you to log in to check that it has been set up correctly and that you can see your child's class page.

What does this mean to you?

Your child now has a Google email address and password that is attached to your child's reading record. The benefit of this is that work can be set by your child's teacher in a more secure and personalised way with more direct feedback and support.

What do I need to do?

Please help your child to log in to their google account on the devices at home that they will have access to for school work.

1. Please click [here](#) to see the steps to follow to enable you to log in.
2. Once you have accessed your child's 'classroom' you will find the link to view the Christmas production.
3. If you have any trouble accessing anything described in this letter, please email Mrs Tillin in the school office at j.tillin@toddstg.co.uk and she will help you.

To reassure you, Google has very robust privacy and security measures so all data is secure. If you would like to know more about this aspect click [here](#).

We look forward to expanding our use of Google for Education in the new year to help support your child's learning.

Thank you for your ongoing support.

Mrs Vickers
Assistant Headteacher/Computing Curriculum Lead
